

7:00pm Meetings

1st Monday of the  
Month

Center for the Visual  
Arts

## April Virtual Meeting

Phil Rose

Phil Rose is known for his thought-provoking wood-based art that starts life on a lathe but may be embellished with wood burning, dye, fused glass, or other delightful techniques. Some of his current work is inspired by thoughts of wave patterns and abstract shapes, as well as creating common objects with different wood. Phil strives to separate the mechanical aspects of woodturning from the physical results, inspiring views to not only admire the art but also wonder how it was created. Phil often says, "While I do generate ideas of art forms I would like to create, ultimately the wood needs to tell me what it wants to become for its second life."

Visit his website at <https://dragonsrose.studio/>

I will walk through the steps of creating one of my split turned pieces from basic wood through finishing and embellishment ideas. Typically, I embed fused glass into the piece, but other options will be discussed, including acrylic 3-d painting techniques, carving, and other embellishments.

## March Demo

Kevin Felderhoff

Kevin Felderhoff had a great demo showing us his technique and tools for making a live edge vase. Between explaining how he prefers to orient the piece as well as some of the differences and correct use of bowl gouges, it was a great learning experience. The two camera tools for hollowing were very interesting and for some of us would make great additions to the shop! As the saying goes, you're just one tool away from greatness!

## Miscellaneous Club Information / Upcoming Activities

### President's Letter

Fellow GTW members,

Its been a good month. We had really good demos from John Beaver with his wave bowls, and Kevin Felderhoff demonstrating his hollow forms. On our April 5th meeting, we will have Phil Rose showing how to do split turnings. We will have show and tell at this meeting as well.

If you are not an AAW member, you should join. They have a wealth of information in the "Woodturning Fundamentals". The February issue features turning an elegant box, making a biscuit cutter, choosing the right carbide tool, and making a food and beverage smoker. The AAW annual symposium will be virtual again this year on July 17-18. Look for sign up information later.

We received a very nice thank you note from the Wise Health Cancer Center for the 10 wig stands we made for their patients.

See you all April 5th!

Joel Rubin  
President GTW

### Quote of the Month

*A bowl has a hole,  
but a platter is  
flatter*

*-Andrew  
Purchase*

### Upcoming Demos

May-Greg Stehle on Making  
an OSB Hollow Form

June- Daryl Jones TBD

July- John Solberg on  
Turning Bowls

### Website and Membership

Additional club information can be found on the website:  
[www.goldentrainglewoodturners.org](http://www.goldentrainglewoodturners.org)

Our monthly pictures, handouts, and up coming activities are posted on the site. You can even see yourself and others in the club!

Membership sign-ups and renewals can be filled out and paid on the website.

Paid members that log on to watch each month's demos are entered in a drawing to win a small prize.

March Winner—Tana Munoz \$25 Wood World gift card

### Texas Ebony

In addition to [Desert Ironwood](#), Texas Ebony might be considered one of the only "exotic" hardwoods that's native to the United States.

Though it's not a true ebony in the *Diospyros* genus, it's perhaps the only native wood that's dark enough to serve as a respectable ebony substitute. (And, like most respectable ebony substitutes such as [Katalox](#) or [Wenge](#), it's also very expensive.)

Barry Todd—Pierced Texas Ebony

### *GTW Mentoring Program*

If you need help with a project, contact one of us!

These members have offered their time and expertise to mentor other members.

Please contact them directly.
