

THE WOODTURNER

MEETING: 7:00 PM
FIRST MONDAY OF THE MONTH
Center for the Visual Arts

Tod Raines

I enjoy the process of turning and I use a mix of planning and serendipity as the creative process evolves. Since woodturning is a subtractive art form there needs to be some planning involved along with knowledge of the natural medium and its tendencies. It is the unknown and spontaneous nature of working wood that intrigues me but also the process of how to get to the final piece. I enjoy showing others this craft and enabling their wonder in what is hidden within the wood.

I got involved with the Dallas Area Woodturners club (an American Association of Woodturners affiliate) in 2007, which connected me with the woodturning community. Through the club and its many members, I learned and grew a lot as a turner. In 2016, I became the treasurer of our club and continue in that position today.

After a long tenure in the telecommunication industry, which ended in 2016, I decided that I needed a new direction in my work life.

THE WOODTURNER

With the loving support of my wife, in April of 2017, I started Woodturning Tool Store, an e-commerce business selling woodturning tools.

Natural Edge End Grain Bowl Turning

By Tod Raines

In this bowl turning demonstration, I'll discuss a couple of jigs for processing logs at the bandsaw. Then I'll demonstrate a couple of different methods of holding blanks on the lathe for traditional, natural edge and end grain bowls. I will also demonstrate different tools used to make essential cuts in the wood. I will demonstrate the turning of a natural edge end grain bowl using a hook tool and teardrop scraper for hollowing.

This kind of natural edge bowl really highlights the bark. The bowl above is about 5.5" tall and 5.5" wide. The walls are thick at about 1/2" and it is Maple. This might seem like a clunky form but with this shape and size I feel like it is highlighting the bark with the lichen and when you pick it up and notice the heft, the relation to the log is felt. Happy turning

SWAT 2018

Early registration for SWAT 2018 is now open. Access to the Vendors Area and Artist Gallery is open to the public at no charge.

We hope you will join us for the second biggest Turning Symposium in the world. Our goal is to give you the best demonstrators, vendors, Art Gallery and learning experience for your money, and still include lunch every day in a relaxed informal atmosphere. Where else could you find:

- Lots of turning classes (total of 54 - Rotations as we call them)
Great lunches
- Biggest Art Gallery of all the symposiums
- “2-for-1” drawings, first drawing for ART and second drawing for TOOLS & WOOD
- Lathe giveaways
- Over 45 vendors in 90 booths
- Along with internationally known turners ... demonstrating in the vendor area

Looking forward to seeing y'all there this year,

Clyde Little, SWAT President

Sand Paper Organizer for Sale \$20 Donation

There are a few ways that the GTW club can generate monies for operations. We charge a small yearly dues and we have raffles. This helps us to bring people in to do demo's and to have open shops. The money collected at the demonstrations we do like Roanoke and Denton Jazz Festival only pay for the materials for the cars we hand out.

John Beasley has designed and made a number of Sand Paper organizers for the club. This is to help the club generate more money for the year and provide you with a product. These are a great way to get your shop organized. I for one have bought one for my lathe area and love it. First time I can look up and see if I need to get more paper before starting a project. I am more prepared to finish now and it makes working in my shop so much more fun. I will be buying a second for another area of my shop. These make a great gift for other wood workers. Support the club and get your sand paper organizer.
