# THE WOODTURNER

[www.goldentrianglewoodturners.org](http://www.goldentrianglewoodturners.org)

MEETING: 7:00 PM  
FIRST MONDAY OF THE MONTH  
Center for the Visual Arts

## Jeff Edwards

I am an Architect who has been designing schools for the past 29 years. My wife Stacy owns Edwards Floral in McKinney and my son Kendall is an Architectural intern in Dallas. I first got hooked on woodturning in my 8th grade High School wood shop class and have never gotten over the bug. Starting out with an old Shopsmith, I turned various projects over the years as family life, career and limited garage space would allow. In 2011 my son went to college and I promptly seized his parking space in the garage as my small shop area and began to enjoy my free weekends turning all kinds of projects with a new larger lathe. Around this time I also became involved with ornamental woodturning and split my time between traditional turning and ornamental turning.

The demonstration will show how to setup a three sided off-center turning and cover the steps in making a friction fit lidded box. The techniques used in creating a three sided turning can be utilized in making a variety of projects and tends to be a good skill builder project for turners of all levels
