BURLS &

HOW TO TURN THEM WITHOUT
CUTTING THE NATURAL SURFACE

I got into woodworking intending to make furniture. I had no interest in turning. In 2000, a fellow woodworker, at my office, signed up for a pen turning class at Woodcraft. I was talked into taking it and was instantly hooked. I bought my first lathe and started cranking out pens. I took another class at Woodcraft on bowls from Gary Roberts. He mentioned Central Texas group and AAW, but didn't say he was instrumental in starting both. I was astonished to realize who I had just taken a beginning bowl turning class from. I also realized that, in the right hands, the lathe could far more than I expected. While I have made a few furniture pieces since then my main focus has been with turning. I have held multiple positions within CTWA, including president.
